

CleanStream Data Quality Dashboard

Kafka → Databricks → Delta Lake data quality monitoring system

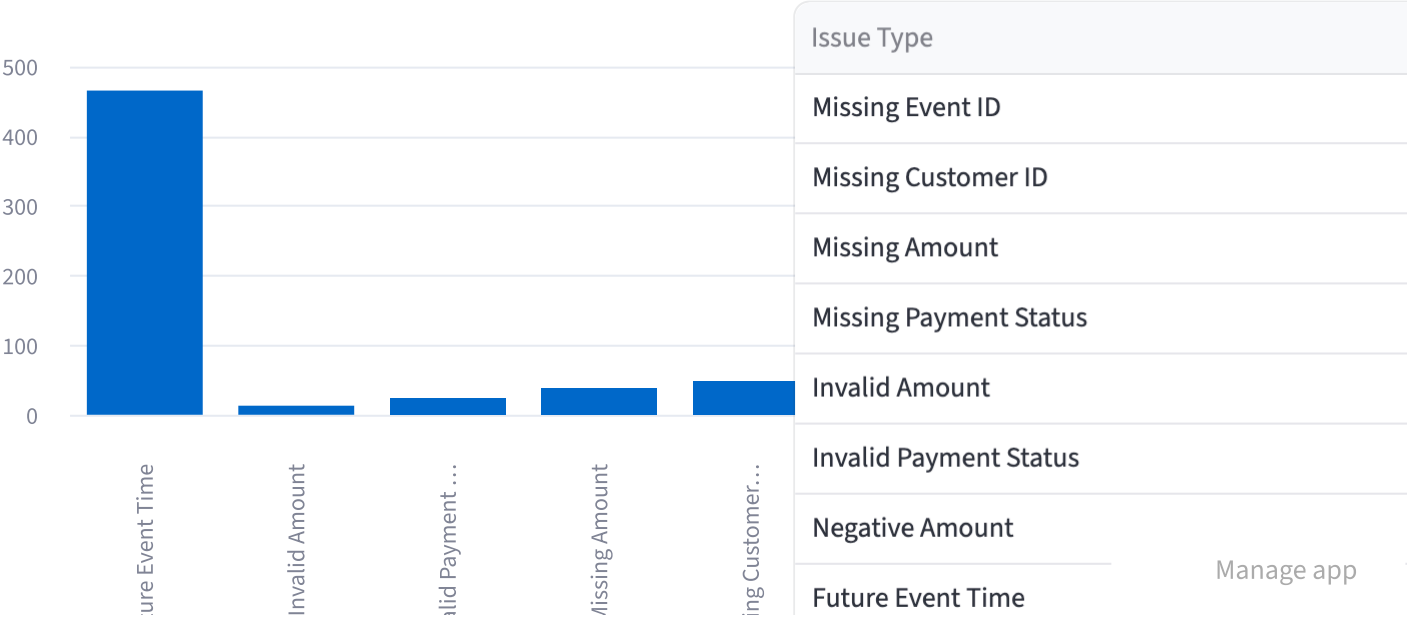

Pipeline Health

Total Events	Valid Events	Invalid Events	Schema Drift	Kafka Partitions
1,291	589	702	3.87%	6
	↑ 45.62%	↑ 54.38%		

Pipeline Status: Critical

This dashboard is monitoring how many Kafka events are clean, how many are broken, and what kind of data quality issues are entering the Delta Lake pipeline.
